
Ordering Information

Catalog No.	Finishes	Luminaire Compatibility
DR2C	Silver	Compatible with all Lytespan, ProSpec and Monopoint Director Remote Controlled luminaires.

Description

Hand-held controller equipped with a laser and infrared transmitters that is used to aim and change light levels of Director luminaires from a remote location. The visible laser selects the unit and allows it to receive movement and dimming commands by infrared. The laser signal accuracy allows a single unit to be easily selected, however any number of Director luminaires can be controlled by a single controller. The controller allows the user to remotely aim the unit, set the light level and set up timed sequences of moves.

Features

1. **LCD Display**
2. **Tilt Up**
3. **Select:** Activates laser.
4. **Tilt Down**
5. **Step:** Allows stepping through a sequence one position at a time.
6. **Edit:** For editing a position.
7. **Go:** Starts a sequence
8. **Record:** For recording a sequence.
9. **Global Command Buttons:** Allows recording and recalling of a sequence for a group of Directors without the need to select them first with the laser.
10. **Pan Right**
11. **Pan Left**
12. **Dim Up** (low voltage Directors only)
13. **Dim Down** (low voltage Directors only)
14. **Cancel**

Electrical

Uses (3) AAA batteries (provided).
